Building Dreams

Custom Cabinetry

Our Story

Since 2004 Hitson Cabinets has manufactured the highest quality cabinets for your kitchen and bath. From our modest beginnings, we've grown into the tri-state leader known for our quality and on time delivery.

Through continuous refinement and upgrading of equipment and techniques, we combine the best that technology has to offer along with trained and dedicated craftsmen. Our staff helps plan your project with the latest 3D software, allowing you to see your dream come to life before the first piece of wood is selected. That same software also allows our craftsmen to optimize your project with the least amount of waste of resources in our CNC routers. We are then able to provide a finish of any color desired, in water-based paints and stains, with a superior application in automated paint booths. Sustainability and artistry now go hand in hand.

We're your friends, your neighbors and we're dedicated to be in this for the long haul. Now, the finest cabinets are available at a affordable price. We strive to exceed your expectations. Your investment is warranted to be free of defects for life.* Let us build your dreams!

* free from defects and workmanship to the original owner for life.
